Beacon Children's Hospital

615 N. Michigan St. | South Bend, IN 46601

574.647.1000

BeaconChildrensHospital.org

Our hospital serves as the regional leader in pediatrics, welcoming families and providing children with exceptional medical care and advanced technology in the most comfortable environment possible.

Our clinical team at Beacon Children's Hospital cares for infants, children, adolescents and teens, whose families turn to us from 15 counties in northern Indiana and southwestern Michigan. We also receive patient transfers from 31 referring hospitals.

- Beacon Children's Hospital is the first hospital where mothers who have just delivered can stay in the same room with their baby in the Newborn Intensive Care Unit.
- Every pediatrics room is private and spacious for families to remain with their child during their stay.
- Each patient room at Beacon Children's Hospital is specially designed to adapt to the child's changing condition. Rather than transferring rooms, your child remains in the same room with the same care team throughout their stay.
- If your child requires services that are not immediately available, our specially trained pediatric ground and air emergency transport teams will transport them to the most appropriate place.
